

Exposed Member

*Exposure to the virus (remember exposure does not mean you are infected, and being infected does not mean you will have fully fledged disease, and even having the disease is not catastrophic)

Self-isolate at home for 3 days or until you have completed a Risk Assessment Form.(i.e. work from home; or your employer will confirm which leave application to complete) The MEDiPOS Risk Assessment Form can be found on the Schemes website on www.medipos.co.za

Does your Risk Assessment suggest positivity?
